

BETTER REPORTS FROM MANILA

GEN. OTIS REGARDS THE NATIVE AS MORE PACIFIC.

Are Waiting for an Attack from the American Forces, Which is Not Likely to be Made. No Truth in the Report That Brooke Will be Removed.

Washington, Jan. 28.—[Special]—Dispatches from Gen. Otis are more reassuring as to conditions in the Philippines. He reports that at present there is no danger of a conflict between Americans and the forces of Aguinaldo. The policy of the native chieftain is to avoid meeting the Americans in hostile array, and to fight only if compelled to do so. In the meantime the American commander is awaiting the confirmation of the peace treaty. He can take no decisive steps until the United States have a legal right to act. The islands will not become the property of the United States until after the treaty with Spain is ratified. Nominally Spain is still supreme there, and the United States without authority save as an invader. After the ratification of the treaty, however, conditions will be changed. Then sovereignty over the islands will reside with this government, which will have an unquestioned right to take such measures as it shall deem proper to maintain peace and good order.

Thus it will be seen, that a policy of waiting is essential as to the Philippines. Gen. Otis cannot assume the aggressive until the treaty is ratified, and must await the action of the senate before asserting the authority of the United States on the islands. He is acting on the defensive only, and will continue to so act until otherwise ordered from Washington.

A MESSAGE TO BUSINESS.

Failure to Ratify the Treaty Would Produce Serious Consequences.

Washington, Jan. 28.—[Special]—One of the consequences of the rejection of the treaty of peace with Spain, which is now being forced upon the attention of the opponents of that measure is that the failure to ratify the treaty of peace at this session would seriously alarm the business world in view of the fact that it is now so thoroughly understood that the rejection of the treaty means the renewal again of the state of war. The apprehensions which that would be sure to create might seriously check the impulse toward business prosperity which has been especially strong since the protocol was signed last summer.

PARTY FOR FARMERS.

National Convention Called—Declaration of Principles.

Avon, Ill., Jan. 28.—The conference of delegates from the farmers' organizations in Fulton, Warren and McDonough counties Friday afternoon declared for the holding of a national convention to form the national farmers' party. A committee was instructed to begin preparations at once for the event. They have power to add to their own number, and will, as quickly as possible, have representatives all through the United States. The convention will probably be held not later than the first week in March.

Eldon W. Bradbury, who has been engaged in the work of organization, read this declaration of principles, which was adopted without dissent:

"We hold that all men are created equal and are endowed by their Creator with certain inalienable rights; that it is to preserve these rights that governments are instituted among men, deriving their just powers from the consent of the governed, and that whenever a government becomes destructive of these ends it is the duty of the people to alter or to abolish it, and to adopt such measures as will insure their rights.

"We hold that the rule of minority classes is contrary to the spirit of our institutions and destructive to our rights.

"We hold that the only free and just government is that in which the law-making bodies are composed of direct representatives from such industries or occupations as have a majority of the votes in the congressional and legislative districts defined by our constitution and the laws of our states.

"With an abiding faith in the truth and justice of our belief we appeal to every farmer in the United States to join hands with us in effecting our purpose, which is the nomination and election of farmers as members of congress, and farmers as members of our legislature. Agriculture being the chief industry of the United States, the immensity and importance of our interests demand prompt and energetic action. To that end we urge an expression of opinion from farmers of this country as to the necessity of holding a convention at the earliest and most convenient time and place to discuss our condition and to adopt such measures and take such action as may seem necessary.

The appointment of an executive committee consisting of one member from each state to determine the place for holding the convention is contemplated. It is likely that the new party will shortly open headquarters in Chicago.

GOOD GRIST OF SATURDAY BUSINESS

LEGISLATURE MAKES GOOD PROGRESS IN WORK TODAY.

Anti-Pass Bill is Postponed by the Senate—Liability of Employers for Personal Injuries to Employees—No Date Fixed for Shutting Off New Business.

Madison, Wis., Jan. 28.—[Special]—The railroad committee's anti-pass bill and joint resolution for a constitutional amendment prohibiting passes were on the senate calendar for action this morning, but at the request of the chairman of the committee they went over until Thursday.

An important bill was introduced by Senator Mills, establishing the liability of an employer for personal injury to his employees. It affects the repeal of the co-employee bill providing that employees shall be responsible where injury to one employee is due to the negligence of another.

Mr. Bennett introduced a bill requiring the successful plaintiff to reimburse the defendant for the improvements and taxes on real estate in certain cases.

A bill passed, increasing the jurisdiction of the Waukesha county court.

The assembly adopted a joint resolution shutting off new business Feb. 10, and then reconsidered the action and laid the resolution on the table. Assemblymen Catlin, Vandercook, Rusk, and Keene thought the date should be made later on account of the delay due to the senatorial contest.

Messrs. Buffington and True spoke in favor of Feb. 10.

A petition for the repeal of the jury system was received.

Mr. Thomas introduced a bill changing the date of the publication of the tax list from May to September.

Mr. Vandercook had a bill to allow county boards to employ counsel in civil actions against the county.

There is no change in the senatorial situation. Two ballots were taken in the republican caucus, but they showed no difference from yesterday except in the number of absentees. The caucus adjourned until Monday evening.

Another ballot for senator was taken in the joint convention of the legislature at noon today. There was no change from yesterday. By agreement of the leaders it was announced that there shall be no election Monday, as many members will not be back. Both houses adjourned till Monday at 11:30 a. m.

Brooks' Cuban cabinet is likewise subject to pressure to secure some definite action on this question before entering upon its administration.

AGONCILLO IS A GREAT NUISANCE

IS ATTEMPTING TO INFLUENCE LEGISLATIVE ACTION.

A Precedent in History That May Cause Him Trouble—He May Be Found Guilty of Constructive Treason and Be Severely Dealt With—Too Officers.

New York, Jan. 28.—[Special]—The officious conduct of Agoncillo, who assumes to be the representative of Aguinaldo, is becoming exceedingly annoying to officials here, and there is some talk of calling him to account. Some have taken the trouble to look up the law in such cases with the idea of applying it to his case. While there is no express statute under which he can be dealt with there is a precedent, and this may serve the purpose of the administration equally as well.

It was pointed out today by a distinguished lawyer that almost exactly a hundred years have elapsed since another diplomatic representative of a nation beyond the sea undertook to do almost exactly what Agoncillo is reported to have undertaken recently. Citizen Genet, representing France, bestirred himself to interfere in American politics, or to influence American administrative or diplomatic relations. He tried to establish, as Agoncillo is reported to have established, a sort of junta for the purpose of influencing public opinion and administrative and legislative action. He made himself a nuisance, and if he had been an American citizen he might have been accused of constructive treason. He was at last practically kicked out of the United States, although the administration at that time might possibly have been justified in arresting him and committing him to prison.

Not since the day of Citizen Genet has any one fortified by real or sham diplomatic credentials attempted interference or tried to influence public opinion or legislative action until Agoncillo, according to reports, undertook to do this very thing. If the reports that come from Washington are correct, then the feeling here is that that the administration has acted with unusual patience, and will be justified in changing that policy.

ROESLING BUYS BUTTON FACTORY

RESUMES WORK WITH LARGE FORCE.

Janesville Pearl Button Factory is Now Under New Management—Will Consolidate With Two Other Factories—Fifty Hands to be Furnished Employment.

Frederick Roesling, of 262 South Main street, has made the purchase of the local pearl button factory started here by the Janesville Pearl Button company. The price paid was private.

The new purchaser intends to first improve the factory by the addition of other machinery to be brought here from two other factories, and then it will be put in full operation, employing a force of from fifty to sixty hands.

Mr. Roesling is a man who understands the business, and when the work of furnishing the factory is completed nothing will be found lacking.

The Janesville Pearl Button company started in business in this city last summer by the renting of the large frame building adjoining the Thoroughgood & Company box factory plant on North Main street. Considerable money was spent in putting in new machinery, and for a time all went well. The company soon found that their factory was still incomplete in many ways, and to furnish it would require considerable additional capital.

Ex-Alderman F. S. Winslow and Harry Davenport, of this city, were mainly interested in the factory, and as they did not feel like putting more money into the factory it was closed, and has remained in such condition for several weeks past.

Mr. Roesling says that just as soon as possible he intends to make the necessary changes and start the wheels in motion, giving Janesville a first-class pearl button manufacturing plant that she may well feel proud of.

WILL BUILD A LARGE FACTORY

Greatest Paper Mill in the Country to be Constructed at Appleton.

Appleton, Wis., Jan. 28.—O'Keefe & Orblison, of this city, mill architects, have filed estimates for what will be the largest print paper mill in the west. It will be located at the White Rapids power on the Menominee river, which was recently transferred by Messrs. Cook, of Chicago, and Orblison, of Appleton, to Ben Hopper, of Oshkosh. The estimate is for a three-machine print-mill, with the usual buildings, such as machine, finishing, digester, grinder, boiler and engine room. The cost will amount to a little less than \$500,000. The plant will be built this summer, it is stated, but the names of those interested will not be announced until the company is incorporated. The Kimberley Clark company is not interested, despite reports to the contrary.

REORGANIZING THE ARMY ON NEW BASIS

IT WILL PROBABLY CONSIST OF SIXTY THOUSAND MEN.

Committee Found the Opposition to a Large Force Too Strong to Contend With—The Compromise Not Satisfactory to the Administration, But Will be Accepted.

Washington, Jan. 28.—[Special]—The president and his supporters are sorely disappointed at the action of the house committee on military affairs in consenting to cut down the maximum strength of the army to 60,000 men. The committee stood out for 100,000 for a long time, but the opponents of the measure declared that they would never consent to so large an increase, and threatened to defeat the measure if the larger number was insisted upon. After a count of the noses the committee found that the opponents of a large army had an unquestioned majority. On the principle that half a loaf is better than no bread the committee has reluctantly consented to make the concession indicated. The officers of the army are much chagrined, but will make a virtue of necessity.

It is probable that the bill will be passed in its amended form within the next two weeks.

NO ELECTION AT MAN

Madison, Wis., Jan. 28.—Several hours' steady voting in caucus Friday failed to break the senatorial deadlock, and the only result of the balloting was a gain of four votes for Cook. In the morning Galaway of Sheboygan, Willott of Manitowish and Willy of Appleton transferred their votes from Stephenson to Cook, and in the afternoon Heohle of Superior made the same change. At the morning session Judge Orton's resolution interpreting the laws relative to the daily joint ballot for a senator so as not to require a vote on Saturday was laid on the table. Many of the members wanted to adjourn from Friday noon until Monday night, but a majority thought that the right form of procedure was to take a joint ballot every day except Sunday until an election resulted. Accordingly the legislature is in session today. This is probably the first time in the state's history that the lawmakers have failed during the early weeks of the session to adjourn from Friday until Monday or Tuesday.

The last ballot Friday night stood thus: Quarles, 40; Stephenson, 20; Babcock, 16; Cook, 20; Webb, 10. There were six members absent.

EFFECTS OF COLOR IN ART AND NATURE

PROF. DUDLEY'S LECTURE AT
THE HIGH SCHOOL.

Many Novel Facts Influencing the
Lower Creation Are Exploited—In-
sects, Animals and Birds Are Pro-
tected by Peculiar Hues—Sea Forms
Are Colorless.

The lecture delivered last night at the High school by Prof. W. R. Dudley, of Lake Forest, Ill., on "Protective Coloring and Mimicry in Art," was not very largely attended. The subject matter of the address was excellent. He proceeded to show the influence of color on many forms of life. It is hard to understand, he said, how color helps the bright-hued flowers and butterflies, the peacock, the humming bird and the many brilliant fruits. But the color must be of some use to the animal or plant, as all colors are explainable from the point of usefulness. There are four distinct prevailing colors on the earth's surface, the colorless hue of the water, the white of the polar regions, the yellowish brown of the barren regions of North Africa, Asia and western North America, and the green of the equatorial countries. Besides these there is the variegated tint of the temperate countries. The predominant color of the animals in each section is the same as that of the area. Sea forms are colorless and transparent. The majority of the animals in the arctic regions are white, the tree frogs, the lizards and the animals of the tropics are green, and the pheasants and all animals that live in the barren country. This coloration makes the animals inconspicuous and thus comparatively safe.

For a long time scientists did not understand the brilliant coloring of some butterflies, caterpillars and other animals until it was discovered that birds wouldn't eat them. They are inauspicious and their brilliant coloring advertise the fact: Taking advantage of this, many edible butterflies mimic their disagreeable friends in shape and coloring, thus protecting themselves.

The lecture was illustrated by colored lantern slides, and their exhibition formed in some respects the most entertaining feature of the lecture, which was listened to throughout with much attention.

Strangers are invited. Morning theme, "Our Sufficiency in Christ."

TRESPASS ON PUBLIC LANDS

Report of the Inspector of the Swamp
Land Department of the State

Madison, Wis., Jan. 28.—E. G. Mul len, chief inspector for the Department of Public Lands, has submitted his report for the four years ending Dec. 30, 1898, to the legislature. The report cites 104 cases of trespasses on the public lands, of which forty-four have been settled for the aggregate sum of \$22,090.11. Of the state park lands 12,953 acres have been sold for \$133,876; there remains unsold 46,177 acres at the appraised value of which is \$212,124.

The report gives in detail the history of the swamp land cases in Wisconsin and the work which has been done in congress for the passage of the indemnity bill, and closes with this paragraph: "The people of the state are to be congratulated that, owing to the untiring efforts of the administration and Senator Spooner, the swamp land grant made to the state nearly half a century ago is in a fair way to be closed up."

Abscess Was Lanced but Would

rilla Purified His Blood—Now a
Healthy Boy.

"Our little boy had a large abscess on one side of his head, back of his ear. It became as large as a pint cup. We had it lanced, but it seemed as though the wound would never heal. It would get better for a short time and then would break out again. The boy's body was covered all over with itching pimples and blotches. We decided to give him Hood's Sarsaparilla, and to our great joy, it has entirely cured him. He was always a weak and puny child, but since taking Hood's Sarsaparilla he is strong and rugged, and as healthy a boy as anyone could wish to see." T. L. Jones, Bluffton, Minnesota. STATE BOARDS ARE FILLED

Appointments Sent by the Governor to
the Senate on Friday

Madison, Wis., Jan. 28.—Gov. Scofield today sent a batch of appointments to the senate. All the appointments were made some time ago, but have not been confirmed. The list, which is as follows, was laid over until tomorrow under the rules:

Footville

Footville, Jan. 27.—Never before was Footville hall packed to the doors as it was on Wednesday night when the curtain rose and the celebrated Temple Quartet, of Rockford, Ill., appeared on the stage to begin one of the best entertainments ever given in this place. They were encored after each number, to which they gracefully responded with something sparkling and up-to-date. The readings of Dr. Sowle were especially taking, and in the green school boy act he certainly "rings the bell." Every one present was well pleased with the program, and no less can be said of the M. W. A. camp with \$30 in the general fund after paying all expenses. J. B. Humphrey, Chas. Rice, Geo. Otis and Wm. Brinkman drove up from Atton to attend the concert.

George says he don't think it is ten miles to Footville after all. The Poach & Seiber Co. have filled their cold storage building with a fine quality of ice from Madison lakes. The young son of Mr. and Mrs. C. R. Vesper is very sick at present with pneumonia. The genial countenance of J. S. Hart, of Janesville was seen on our streets Thursday. The tobacco warehouses of Owen & Pepper and G. D. Silverthorn are both running at full capacity, employing about twenty assistants each.

COULD NOT EAT OR SLEEP.

Was Fast Bordering on Complete Nervous Prostration.

Dr. Greene's Nervura Cured Me By Its Wonderful Effects.

Dr. Greene's Nervura Also Cured My Child After All Other Remedies Failed.

Mrs. Pauline N. Blakewell, 740 Jefferson Ave., Detroit, Mich., says: "Three years ago I found myself bordering on nervous prostration. I could neither eat nor sleep. Happening to have my attention called to the wonderful restorative effects of Dr. Greene's Nervura blood and nerve remedy, I decided to give it a trial.

By the time the first bottle was gone I felt better and was satisfied that it was doing me good. When I had completed the third bottle I felt entirely cured. My appetite was now good and I could lie down and sleep soundly, something I had not been able to do in years. I can conscientiously recommend the use of this great strengthening medicine to all. A year ago my little daughter was taken suddenly and seriously ill with what physicians pronounced spinal meningitis. After their remedies had all failed to cure her I commenced giving her Dr. Greene's Nervura blood and nerve remedy, and in less than two weeks from the time of taking the first dose, she was on her feet running around, and in a little while she was as well as ever.

People use Dr. Greene's Nervura with the greatest confidence because it is the prescription of the famous Dr. Greene, 148 State St., Chicago, Ill., who can be consulted at any time without charge, either by writing or calling.

WILL AMEND THE ARMY BILL.

Chairman Hull Bends Before Strong Opposition.

PRESIDENT TO HAVE POWER.

Our Standing Army to Be Increased to 60,000 Men for the Present—Senator Frye Urges Early Action on Peace Treaty.

Washington, Jan. 28.—The opposition to the army reorganization bill on the republican side of the house has become so strong that on Friday Chairman Hull, after Mr. Henderson of Iowa, one of the floor leaders of the majority, had threatened to vote to recommit the bill, decided it would be wise, in order to secure its passage, to abandon the idea of providing directly for a regular army of 100,000 men. He announced on the floor that the committee would offer amendments to reduce the number of enlisted men to about 60,000, but lodge in the president's discretion the authority to increase the army to its maximum of 100,000. How far this proposed modification will allay the opposition remains to be seen.

Mr. Henderson (rep., Iowa) was the first speaker. He said he looked with aversion upon any proposition to increase the regular army, and he hoped it would not be necessary to establish a standing army of 100,000 men. He was, however, in view of the conditions, willing cheerfully to support a proposition to increase the army to 50,000 or 60,000. Beyond that he hoped he would not be called upon to go.

Mr. Prince (rep., Ill.) and Mr. Cousins (rep., Iowa) supported the bill, and Mr. Robinson (dem., Ind.) opposed it.

Mr. Hull, in charge of the bill, closed on his side.

This ended the general debate, and the bill was read for amendment under the five-minute rule.

The first vote was taken on the committee amendment to increase the number of chaplains from thirty to forty, and it was carried, 68 to 38.

Mr. Hay (dem., Va.) offered an amendment providing for a two years' term of service. The amendment was voted down, 92 to 77.

Mr. Lacy moved to strike out the provision for a lieutenant-general, and after a short debate the motion prevailed.

At 5 o'clock the house recessed until 8, the evening session being devoted to private-pension legislation.

Frye Urges Early Action.

Refutation of the Treaty, He Says, Would Avert Danger of War.

Washington, Jan. 28.—The senate continued the consideration of the peace treaty in executive session Friday, the doors being closed for almost three hours.

Senator Frye, a member of the Paris peace commission and naturally a strong friend of the treaty, held the attention of the senate during the greater part of this time. The treaty, he said, should have been ratified ten days ago, and if it had been, all danger of war with the people of the Philippine islands would have been averted.

Senator Mason put the question whether the commissioners did not know when they made the treaty and whether he did not know now that the natives of those islands were then, as now, demanding their independence.

In response Mr. Frye repeated that the commission had dealt with Spain regarding the Filipinos as subjects of that country. Spain had lost in the conflict of war, and hence the United States had a perfect right, according to the law of nations, to acquire any part of her possessions or people in adjusting the balances after the war was over.

Senator Berry, in his speech, declared that the acquisition of the islands was merely a speculative scheme, containing more of the element of land grabbing than of patriotism or philanthropy.

T. C. Platt on Expansion.

Washington, Jan. 28.—Particular interest was manifested in the senate Friday in a brief speech delivered by Senator T. C. Platt of New York on the general subject of expansion. He took strong ground for the ratification of the pending treaty of peace. Under the arrangement concluded Thursday evening consideration of the pension appropriation bill was resumed.

The day's session closed with eulogies of the late Representative Cooke of Illinois. Addresses were delivered by Mr. Cullom (Ill.), Mr. Allison (Iowa), Mr. Wellington (Md.) and Mr. Mason (Ill.). At the conclusion of the eulogies the senate adjourned at 5:15 p. m., as a further mark of respect.

Pension for John M. Palmer.

Washington, Jan. 28.—The bill introduced a few days since by Mr. Cullom (rep., Ill.) giving a pension of \$100 a month to ex-Gov. John M. Palmer of Illinois as major general of volunteers, was reported back favorably and passed.

Pan-American Exposition.

Buffalo, N. Y., Jan. 28.—The popular subscriptions to the stock of the Pan-American exposition, which will be held here in 1901, reached \$1,000,000. The capital stock will be increased to \$2,500,000.

LIKE A MIRACLE.

HOW A LOCOMOTOR ATAXIA SUFFERER WAS CURED

The Story of a Sturdy Engineer—His Death was Decried at a Consultation of Physicians but a Changed Medical Treatment Saved His Life

From the Evening News, Detroit, Mich. James Crockett, a sturdy old Scotchman, living in Detroit, Mich., at 88 Montclair Street, was asked about his wonderful cure. "First," he said, "I must tell you something of my life before my almost fatal illness. I was born in Scotland in 1822, and came to this country in 1845. I am a marine engineer by trade, and have been up and down the big lakes hundreds of times.

There is no spot between Duluth and the Atlantic Ocean I do not know. In 1872 I was in the employ of the Detroit and Cleveland Navigation Co., and for fifteen years I was at my post as chief engineer on one of their big passenger steamers. My first boat was the R. N. Rice, which was burned at the docks. Then I was transferred to the Rubie, which was chartered to make the run between Detroit and Cleveland.

"I brought out the new steamer, 'City of the Straits,' and for years acted as her chief engineer. It is a great responsibility, the position of chief engineer on those big passenger palaces. Thousands of lives are held in the keeping of the engineer. Few realize the dangers that might befall them, and on the engineer depends the safety of the passengers. The anxiety causes a great nervous strain, and the strictest attention is necessary during the trip. Not for a moment must he lose his watchfulness, as the human freight above him is absolutely in his care.

"For fifteen years I carefully watched the big engines and boilers without a single accident, and only noticed that I was getting nervous. Suddenly without warning I was taken sick, and in less than a week I was prostrated. I had the best of physicians, and hoped to be at work again within a week. I grew gradually worse, and at the council of doctors they said I had a nervous prostration, and had destroyed my whole nervous system and would never be able to be up again. They said I had worn myself out by the long nervous strain caused by watching and worrying about the machinery. No man could stand such nervous strains over seven or eight years, while I had been fifteen years in destroying my nerve centres. For three long years I was unable to move from my bed without assistance. The doctor said I had locomotor ataxia, and would never be able to walk again.

"The pain and suffering I experienced during those years are indescribable. My wife used to put eight or ten hot water bags around me to stop the pain. Those that came to see me bid me good-bye when they left me and I was given up. The doctors said nothing more could be done for me. In fact I had given myself up, and thought there was no use trying to get well. "We tried every known remedy, and my wife kept reading the articles about Dr.

Big Ocean Liners Are Overdue.

New York, Jan. 28.—Three big liners are overdue at this port. They are the White Star steamer Britannic and the North German Lloyd steamers Saale and Kaiser Wilhelm II. At midnight last night none of them had been reported by the Fire Island or Sandy Hook marine observers.

IS IT CURABLE?

A Question Often Asked by Those Afflicted With Piles.

Is a strained joint curable? Is local inflammation curable? Of course, if properly treated. So is piles.

People often become afflicted with piles and ask some old "chronic" who has always persisted in the wrong treatment and naturally he discourages them by telling them that their case is hopeless.

They in turn discourage others, and thus a disease that can in every case be cured by careful and skillful handling is allowed to sap the energy of thousands who might free themselves of the trouble in a few days.

Pyramid Pile Cure will cure the most aggravated case of hemorrhoids in an astonishingly short time. It relieves the congested parts, reduces the tumors instantly no matter how large, allays the inflammation and stops the aching or itching at once.

Thousands who had resorted to expensive surgical treatment have been cured by the Pyramid Pile Cure—in a number of instances persons who had spent months in a hospital under a pile specialist.

It is a remedy that none need fear to apply even to the most aggravated, swollen and inflamed hemorrhoidal tumors.

If you are afflicted with this stubborn disease you can master it and master it quickly.

This remedy is no longer an experiment, but a medical certainty. It is manufactured by the Pyramid Drug Co., of Marshall, Mich.

Druggists sell it at 50 cents per box. It is becoming the most popular pile cure this country has ever known and druggists everywhere are ordering it for their customers.

Ask your Druggist for a generous 10 CENT TRIAL SIZE.

Ely's Cream Balm contains no cocaine, mercury nor any other injurious drug. It is quickly absorbed. Gives relief at once. It opens and cleanses the nasal passages. Allays inflammation. Locomotor Ataxia and Paralysis Can be Cured

These extreme nervous disorders were treated with wonderful success by the discoverer of Dr. Williams' Pink Pills for Pale People previous to his discovery being offered to the public. This remedy is the only known specific in many diseases that, until recent years, were pronounced incurable. Recognizing their merit in such cases, many physicians now prescribe

Dr. Williams' Pink Pills for Pale People

These pills expel impurities from the blood, and supply the necessary material for building up wasted nerve tissue, thereby reaching the root of many serious diseases.

The great success of this remedy has led to many attempts at imitation and substitution. Some dealers tell customers that they have "a pill made from the same formula," or "the same except in name." Of course it isn't true. But they don't fool many buyers. People are too intelligent.

Address the DR. WILLIAMS MEDICINE COMPANY, Schenectady, N.Y.

Williams' Pink Pills for Pale People to me. Finally she said they only cost 50 cents, and she wanted to know if I would try them.

To please her I consented, and the first box gave me relief. I continued to use them for about two years before I could get strength enough to walk. It came slow but sure, but what I am to-day is due wholly to Dr. Williams' Pink Pills for Pale People.

Nearly everybody in Detroit knows how long I was confined to the bed, and of my wonderful cure. It is almost a miracle to some people that saw me when the doctors had given me up, but Dr. Williams' Pink

Pills for Pale People cured me surely enough.

"Dr. Williams' Pink Pills for Pale People made me what I am to-day. I only wish I could persuade others to do as I did, and take them before it is too late."

(Signed), "JAMES CROCKETT." Before me, a Notary Public, personally appeared James Crockett, who signed and swore to the above statement as being true in every particular.

MARRIAGE LICENSE LAW

A bill has been introduced in the legislature providing for the issuing of marriage licenses, as is the rule in many other states. As the average Rock county man does not get married more than half a dozen times a year, and as the fee for the license is low—\$1.50—there would appear to be no good reason why the law should not be enacted. The fee has to be paid by the groom, so no hardship would be put upon any of the blushing maidens who did not have the money. And if the groom could not raise the cash, he certainly should not get married. Thus the financial phase of the proposition is easily disposed of.

Some folks might complain because they had to "declare their intentions" in advance, but people who do not want to wed had enough to walk up to the captain's office and say so, could, it would appear, get along very well in a state of single blessedness.

Youthful lovers who "marry in haste and repent at leisure" might also complain, but their mammas and papas certainly would not. The lawyers might have fewer divorce cases to prosecute, and the newspapers would thus miss "a good story of news," while the marrying parsons and magistrates—through whom some of our neighboring cities have gained a reputation—might have to get along with fewer diamond pins and rubber tired carriages. And the hearts of a few ill-advised young people might be temporarily broken, but the healing hand of time would do its work as of yore, and when the day came when the two hearts really did beat as one—to the extent of \$1.50, cash—the license could be procured without materially interfering with any of the nuptial arrangements.

Thus it will be seen that no persons who seriously contemplated "committing matrimony" would be deterred by the license law, while many "fool marriages" would undoubtedly be prevented.

VOTE FOR "SECOND CHOICE."

Several candidates claim that the "second choice" vote will nominate them. Why can they not agree among themselves, then, to take ballot in which it is understood that all the legislators are to vote for their "second choice?" Such a ballot would be, if the campaign managers have spoken the truth, as fair for one as for another. It would clear the atmosphere, if it did not elect. That the "first choice" of all the members cannot be elected goes without saying. The campaign managers certainly have some pledges upon which to base their "second choice" estimates. Now that the deadlock remains unbroken, a legislator who has made a "second choice" pledge is also answerable to the man to whom the pledge was given. If, for instance, a Stephenson man has agreed to vote for Mr. Quarles as his second choice, his obligation to Mr. Quarles begins when his obligation to Mr. Stephenson is fulfilled. Have not first choice pledges been made gone? And if so, are not second choice pledges the more binding at the present time?

The claims of the individual are a small matter when compared to the claims of the republicans of the state.

Unless the deadlock is broken, a "dark horse" must be nominated by mutual consent.

The only way that one of the present candidates can be chosen, is to take a "second choice ballot," and justice to all concerned demands that it be taken at once.

The Watertown Daily Times says: "Members of the legislature at Madison are wasting valuable time trying to elect their choice for United States senator. By simply combining on Governor Scofield for the honor they would secure a good man and avoid needless entanglements. Will they do it?"

that are now given to ex-soldiers of the civil war.

A bill has been introduced in the assembly to reduce railway fares in Wisconsin to two cents a mile, but up to the hour of going to press the railway companies had not taken the hint.

"I sincerely hope" said the Milwaukee marrying parson as he finished reading the proposed marriage license law, "that the legislature will pass* this bill."

ILLINOIS LEGISLATURE.

Bill Introduced Aimed Against Butterine Manufactures.

Springfield, Ill., Jan. 28.—Representative Purdum Friday introduced a bill in the house which is destined to cut into the receipts of the butterine people by providing a fine of \$100 to \$1,000 against officers of state charitable institutions who purchase butterine or oleomargarine for use in the institutions.

Representative Green, a Belleville coal miner, who has been in attendance at the miners' meeting at Pittsburg, made his first appearance and introduced a bill to amend the revenue law, more particularly reducing the penalty provided for failure to schedule personal property for taxation.

Representative Ross of Vandalia presented a bill asking for an appropriation of \$150,000 for two hospitals, one in northern Illinois and one in southern Illinois, for the care of drunkards. It is to be established by the state and under state supervision, but the cost of maintenance is to come from saloonkeepers.

The following bills were introduced in addition to those mentioned above: Tippet, to provide for uniform text books in the schools of the state; Green, regulating the manner of assessing property; Burgett, providing that vacancies in the office of county superintendent of schools may be filled by the county board, and in case of a tie the county judge shall cast the deciding vote; Goodnow, requiring all corporations doing business in this state, other than railroad, banking, building and loan, and insurance companies, to make annual reports to the secretary of state.

MAGNET FOR AMERICAN GIRLS.

Some Reflections as to Why Many Marry Englishmen.

Why does the American girl marry the Briton? Has she any adequate justification? Do you suppose it pays her and can such a choice on her part be defended on large grounds as motive of the greatest good of the greatest number? Is it a fact, as has been flippantly suggested, that she moves to England to get country life because we have no good roads here yet, or, on the contrary, can it be demonstrated that one reason our country roads are so bad is that the American girl cannot abide the country and promptly carried her man off to town at the earliest moment that sees his endeavors blessed with the necessary income? Is it her fault that country interests tend too much to fall to the care of a residuum that is too poor to get away, or has the country life not much to do one way or the other with her British propensities? To be honest, there are other conceivable reasons for marrying an English gentleman besides his country roads. He may be a charming gentleman—they are said to be so once in a while—who can win a wife by plain, personal courtship, and whom any woman might be justified in marrying on general principles and without specific excuses, or he may be a good "average" sort of man whose advantage over his American brother is a matter of size or complexion or hale appearance. I have known American women who ventured to assert that the feminine eye rejoiced more in the type of male human that treads the pavements of Piccadilly and Pall Mall than in the contemporaneous pedestrians of Fifth avenue and Broadway. Or may be it is his superior stolidity that electrifies in the Briton. It is to be feared that there is no truth in that tale Mr. Kipling or somebody was telling of how phlegmatic merchants of the east had discovered that the way to beat the American was simply to put him off and let him fret himself reckless. Stolidity is not quite the same as repose, but to persons who are suffering from an acute dearth of repose it may appeal as a tolerable substitute, so that one can imagine an American maid, worn with the restless aspirations of her high pressure countrymen, turning with sincere relief to pillow her fair young head upon a bosom behind which lurked no threat of heart failure.

GAMBLERS DISLIKE UMBRELLAS

Why Oilskin Coats, or "Slickers," Enjoyed a Boom in Carbonate.

"Gamblers are notoriously superstitious," said a veteran sport who is staying in New Orleans during the winter races, according to the St. Louis Globe-Democrat, "and a thousand stories are told of their eccentricities in that line. The queerest thing that I know personally to be a fact occurred in 1878 in a Colorado mining camp called Carbonate. It was a wild, woolly place and practically run by the tough element. Of course there was plenty of gambling, and one evening a stranger carrying an umbrella walked into a place where a faro outfit was in full blast.

Happening to notice that one of the ribs of the umbrella was sprung he thoughtlessly opened it right over the head of a player. The man glared around, and, whipping out a pistol, shot the stranger dead. He was arrested and taken before a self-appointed judge, who was also the proprietor of a keno room. The prisoner admitted the deed, but pleaded extreme provocation. The opening of the umbrella over the head of one who is playing faro, he explained, was, as everybody knew, a hoodoo for life and doomed its victim to a career of uninterrupted disaster. The only way to remove the curse was to instantly slay the owner of the umbrella. The judge listened with sagacious nods, and then sent for a number of hoodoo experts—in other words, the principal gamblers in town. They turned pale at the very mention of umbrellas, and declared on oath that such an episode as the one described would undoubtedly blight anybody's entire life.

"Only two courses were open in such a case—suicide or manslaughter. The magistrate charged the jury that they were the sole judges of the facts and the hoodoo, and they promptly returned a verdict of justifiable homicide. After that umbrellas became unpopular in Carbonate, and oilskin coats, or 'slickers,' as they are called in the west, enjoyed a great boom."

Concerning Centenarians.

Of the fourteen reputed centenarians who died during the past year, no fewer than eleven were women, according to the Illustrated London News. Out of the 188 persons who were declared as over 90 years of age, 168 were women. The superior longevity of the female sex is a well-established fact. To some extent it depends, of course, on their more sheltered method of living, but by no means exclusively, as the women of the laboring classes show a great vital tenacity as well as those who have an easy time of it in the world. The vital power of girls is displayed in babyhood, for though about 104 boys are born to every 100 girls, the females have more than overtaken the deficiency before the end of the first year. In other words, the belief of old nurses that "boys are harder to rear than girls" is a true one.

TOBACCO HANDS LEAVE THEIR WORK

TWENTY-THREE GIRLS OUT ON STRIKE.

The Robert L. Erler Leaf Warehouse is at Present in a Crippled Condition—Girls Have Been Paid Sixty Cents But Want Seventy-Five—Others Won't Strike.

Twenty-three girls employed as sorters in the Robert L. Erler leaf tobacco warehouse at the corner of Pleasant and Adams street failed to report for work when the warehouse doors opened at 7 o'clock this morning.

In other words they are out on a strike.

The girls claim that they are not being paid enough, and what they demand is a rise from sixty to seventy-five cents a hundred pounds. Their demands will not be complied with, and the present indications are that Mr. Erler will start his warehouse Monday morning with a full force just as if nothing had happened.

At the other local warehouses in the neighborhood of 800 hands are at present furnished work, but they absolutely refuse to join the strikers, claiming that they are well satisfied with the present scale of wages paid.

Mr. Erler stated this morning that the first intimation he had that his help were dissatisfied was yesterday afternoon about 2 o'clock, when the girls made their wants known through a Miss Cole and a Mrs. Randolph, who stepped to the center of the room and spoke in behalf of those present. They stated that in their opinion they were not being paid enough wages for their work they did. They further said that they got to work at 7:30 in the morning, and worked hard till 5:30 o'clock in the afternoon, and still they were not able to make fair wages when a scale of sixty cents for sorting was paid. What they wanted was seventy-five cents a hundred, or they would quit there and then.

After Miss Cole and Mrs. Randolph had made their little speeches, each of the twenty-three girls present sanctioned the same by a sweet smile and a nod of the head. Foreman Edwin S. Head, who has been in the leaf tobacco business here for many years, then took the floor, and in a short but impressive address notified the young women that they were making a great mistake, and that he thought they were asking for something unreasonable. He referred to the scale of wages paid in the local warehouses at present, and to what had been paid in Janesville for several seasons past. Foreman Head then said that his firm would not comply with the request.

The girls looked mad, and for fully a minute said nothing.

One of the women who had made the demand then led the way to the cloak room, followed by the twenty-three girls, who, after securing their wraps, were each paid off and left.

The strike in all probability will not affect the other local warehouses, for the 800 hands who are employed there are at present well satisfied with the sixty cent scale, and when seen today stated that they believed the girls at the Erler warehouse had made a big mistake.

Mr. Erler stated this morning that many of the girls averaged \$8 a week, and were then not satisfied. He says he will start up Monday with a full force, and that already some of the strikers have expressed their willingness to return.

CHADWICK HAS NO SYMPATHY

For Merchants Who Allow Themselves to be Imposed Upon.

W. W. Chadwick, assistant state dairy and food commissioner, who has been after the oleomargarine dealers of Rock county, of late, says that he intends to always be on the alert in the prosecution of violators of the laws. He has little sympathy with merchants who will let themselves be imposed upon by unscrupulous manufacturers. The commissioner is giving much attention to the dairy products and has some big fights on hand with certain Chicago oleomargarine dealers.

GENUINE BLIZZARD RAGED

Delayed the Street Cars and Made Traveling Difficult.

A genuine blizzard raged through the day, and pedestrians found it difficult to navigate during the early hours of the morning, when the wind went sailing through the streets at the rate of fifty miles an hour.

Railroad trains were delayed, and the street cars found it hard work to travel. On several of the outgoing locomotives on both local roads large snow plows were attached, and not a few of the freights pulled out as double headers.

Incoming trains from the north were coated with snow, and trainmen report a heavy fall of the beautiful all along the line north of here.

DEATH OF MRS. LUCY RICE

Passed Away After a Long and Useful Sojourn On Earth.

Mrs. Lucy Rice, mother of Walter S. A. F., and Ezra Rice, of this city, and U. T. S. Rice, of Mattoon, Ill., died this morning at 8:45, after about four days' sickness with pneumonia, at the residence of her son, A. F. Rice, 19 Linden avenue.

Mrs. Rice was the widow of John Rice, who died here about ten years ago. She was born at Sopworth, Wiltshire county, England, April 7, 1821, and was in her seventy-eighth year. She and her husband came to this country in 1833 to spend their last days with the sons who had preceded them some years before. Mrs. Rice was of a kind and sympathetic disposition, and during her residence here had made many warm friends, who will miss her kindly words.

The funeral will take place tomorrow (Sunday) afternoon at 3 o'clock from the house.

FLAG OVER MORRO.

It Was First Hoisted in Philadelphia During the Civil War.

Few American flags have a more interesting history than attaches to the banner which was hung to the breeze over Morro castle, Havana, on New Year's day. It first flew over the Corn Exchange National bank, Philadelphia, when the famous Corn Exchange regiment of volunteers was organized for the war of the states. It flew over the bank during nearly the whole of the war and was then secured by the late ex-United States Senator Alexander G. Cattell, then an officer of the bank. He took it to his residence in Merchantville, N. J., and stored it away as a sacred thing. While President Grant was visiting Senator Cattell he raised the historic banner to a pole over the senator's mansion—an act that added materially to the historic value of the stately emblem. After that the flag was again stored away as a prized relic. When ex-Senator Cattell died it was practically forgotten until George W. Algor procured it from the estate and presented it to the government for the purpose, to which it was put at Havana.

WOMAN'S TESTIMONY BAD FOR BREWER

MRS. H. LEE, OF MAGNOLIA, THE WITNESS.

Testified That Defendant Said He Was Going to Chicago For He Had Done Something and That He Could Not Stay and Face the People—Other Witnesses.

Jay Brewer, who is now on trial in the municipal court on the charge of having stolen \$78 from the person of Patrick Noonan, a Spring Valley farmer, had plenty of damaging testimony given against him today. Testimony was also introduced which showed that the defendant was not as bad a fellow as some people would like to have the public believe.

It is doubtful if the testimony of any of the witnesses for the state carried as much weight as that given by Mrs. H. Lee, of Magnolia. She testified that in the latter part of April last, Brewer called at her home to pay her husband a debt of three dollars, and that while there he displayed a large roll of money and seemed to be in a hurry and nervous. Mrs. Lee said that Brewer stated that he was going to Chicago, and when asked what he was in such a great hurry for he said: "I have done something for which I cannot stay and face the people."

Among other witnesses for the state were Constable Wesley Jones and Justice John Heimbaldt, of Orfordville. Their testimony related to the arrest of the defendant and the proceeding that took place at the time. The testimony on the part of the state was finished this morning, and then several witnesses were put on the stand for the defendant. Among these were the following: Ward Andrews, George Bahr, John Charley, John Bahr, Louis Granver and Joseph Bishop.

The case was adjourned this afternoon, to be resumed Monday.
